(54) ANTI THEFT STORING DEVICE FOR CD

(57)Abstract:

PROBLEM TO BE SOLVED: To provide an anti-theft storing device for CD in which it is an integral molded product and its locking operation can be easily carried out.

SOLUTION: This storing device 10 is made of transparent plastic material, wherein its part is provided with some anti-theft tags to prevent a CD stored in a CD case from being stolen. One of inner side surfaces of a main body 11 of the storing device is provided with a partial storing section in which one side of the CD case 23 is inserted and the other inner side surface is provided with each of a plurality of retractable engaging hooks 15, 16 for use in engaging with the other side of the CD case 23. Entire storing device is formed by an integral molded material.
